

Annex 1 to Call “Pre-Application Research for ITI”

for applications for support of individual projects under the Operational Programme Research, Development and Education

Ref. No.: MEYS-37452/2016-3

Priority Axis 1 – Strengthening the Capacities for High-Quality Research

Investment priority: Investment Priority 1 – Enhancing research and innovation infrastructure and capacities to develop research and innovation excellence, and promoting centres of competence, in particular those of European interest

Specific objective: Specific Objective 2 – Building capacities and strengthening long-term cooperation between research organisations and the application sector

Call number: 02_17_048

	NCI code	Indicator name	Unit of measurement	Attribute	Specification for the call
outputs	2 04 00 (CO 24)	Number of new researchers in supported entities	FTE	Mandatory for selection mandatory for fulfilment, must be bound with 2 04 02	This means the number of all newly created jobs for researchers converted to FTE. A job is a direct result of the implementation of the project; it must be filled (vacant jobs are not counted), and increase the total number of research jobs in the organization. The post must be filled (i.e. a contract/ agreement must be concluded with the worker) no sooner than after the OP RDE project started its implementation. The indicator is linked to the ITI strategy.
	2 04 02	Number of new researchers in supported entities – women	FTE	Mandatory for selection Non-mandatory for fulfilment	Number of newly created jobs (converted to FTEs) in the supported research facilities held by researchers – women.

NCI code	Indicator name	Unit of measurement	Attribute	Specification for the call
2 05 00 (CO 25)	Number of researchers working in improved research infrastructures	FTE	Non-mandatory for selection, mandatory for fulfilment, must be bound with 2 41 01 and 2 05 02	Number of researchers (converted to FTE) who work in improved research centres under the OP RDE project (one FTE equals one year of work - the target value in the project is cumulated, i.e. it is a sum of FTEs for every work contract in every year of the project implementation). This indicator is mandatory and is fulfilled only when implementing activity (h) Purchase of infrastructure necessary for project research plans and their experimental verification. The indicator is linked to the ITI strategy.
2 05 02	Number of researchers working in improved research infrastructure facilities – women	FTE	Non-mandatory for selection, Non-mandatory for fulfilment	Number of researchers - women (converted to FTE/ number of full-time jobs) working in the supported research facilities.

	NCI code	Indicator name	Unit of measurement	Attribute	Specification for the call
	2 41 01	Number of expanded or modernised research centres	Workplace	Non-mandatory for selection, mandatory for fulfilment, must be bound with 2 05 00	<p>Number of research workplaces/ centres where the research infrastructure has been modernised or expanded thanks to the support, i.e. investments were made into equipment or instruments used for research purposes.</p> <p>The applicant must choose the indicator when implementing activity (h) Purchase of infrastructure necessary for the project's research intents and their experimental verification.</p> <p>The indicator value is set based on the number of research centres according to the internal division of the beneficiary/partner (i.e. if one research centre enters the project, the value equals 1; if various centres of the beneficiary or partners enter the project, the value is higher).</p> <p>The applicant is required to specify this indicator in the annex to the application for support / Implementation Report – Overview of key outputs contributing to the ERDF project indicators.</p> <p>The indicator is linked to the ITI strategy.</p>
	5 10 17	Number of one-off events	Events	Non-mandatory for selection, mandatory for fulfilment	<p>Number of one-off professional events helping to promote the joint activity of the research organisation and its partners, incl. promotion of joint outputs. This does not involve publicity of the project.</p> <p>The indicator is elective when implementing activity (j). Activities leading to the dissemination of the results of joint activity and its outputs.</p>
results	2 02 11	Publications created by supported entities (selected types of documents)	Publications	Mandatory for selection, mandatory for fulfilment	The number of scientific publications recorded in the database Thomson Reuters Web of Science, Scopus or ERIH PLUS, published after the date of approval of the project in OP RDE, where at least one of the co-authors is a researcher of the

NCI code	Indicator name	Unit of measurement	Attribute	Specification for the call
				supported research institution. Included are publications of the following types: "article", "book", "book chapter", "letter" and "review". The indicator is linked to the ITI strategy.
2 02 16	Scientific publications in co-authorship with researchers from abroad created by the supported entities (selected types of documents)	Publications	Non-mandatory for selection, mandatory for fulfilment	At least one of the co-authors of the publication is a researcher from the supported research institution and at least one of the co-authors is a researcher from a foreign institution, i.e. it does not have to be a project partner. The indicator is a subset of indicator 2 02 11. The indicator is linked to the ITI strategy.
2 20 11	International patent applications (PCT) created by supported entities	Applications	Non-mandatory for selection, mandatory for fulfilment	This means international applications according to the Patent Cooperation Treaty (PCT). The indicator is linked to the ITI strategy.
2 03 12	Number of participations of supported research teams in international cooperation programmes	Participations	Non-mandatory for selection, mandatory for fulfilment	Number of participations of research teams from the Czech Republic in foreign cooperation programmes for which financing was approved only after the date the project was approved in OP RDE, and which can demonstrate their connection to the research focus of the project. The indicator relates to the implementation of activity (f).
