| F10          |   | It is evaluated, whether the request respects the financial limits of the budget set by the call<br>and the Rules for applicants and recipients.  | exclusion | uncorrectable                 | yes/no                                       | grant application:<br>- Budget                        | MS2014+               | If the MS2014+ will not automatically control limits, the criterion will be assessed at the stage of objective evaluation. |
|              | resources in the financing overview is<br>being provided in accordance with the | It is evaluated, whether in the grant application the applicant's own resources are included, in accordance with the Rules for applicants and recipients and the wording of the call.   | exclusion | uncorrectable                 | yes/no                                       | grant application:<br>- Financing sources<br>overview | evaluator/<br>MS2014+ |  |
| F12          | applicant   | It is evaluated, whether the annual turnover of the applicant entity is min. one half of the eligible expenditure stated in the grant application With projects lasting 12 months or less, whether it reaches this entire amount. In the case of projects where a financial partner/partners participates/participate on the implementation, the relevant part corresponding to the partner/partners share can be demonstrated by the applicant through a partner/partners. The condition of achieving the required turnover is met for two closed accounting period of 12 months, (if existent) and for which the applicant had to submit a tax return, and which predate the submission date of the application. This fact is demonstrated by the applicant by submitting the Profit and loss statement for the period specified above. The definition of annual turnover is specified in § 20 para. 1 point. A) section 2 of the Accounting Act no. 563/1991 Coll.: " the annual total net turnover is, for the purposes of this Act, the amount of revenue reduced by sales discounts and divided by the number of commenced months, for which the accounting period lasted, multiplied by twelve" Taxpayers who have not been formed or established for the purpose of business (§ 18 par. 3 of the Income Tax Act No. 586/1992 Coll. ), indicate the annual net turnover of the overall activity, i.e. the main and economic activities. Taxpayers who keep tax records, state the total of all revenues achieved in the taxable period or the period for which they submitted the last tax return for income tax.  For applicants listed in annex no. 1 and 2 of the Act no. 111/1998 Coll., on universities, as amended: Applicants do not report turnover. The financial stability of applicants is evaluated through annual or other economic reports of the applicant. |           | uncorrectable                 | yes/no                                       | annexes:  | evaluator             |  |

A possible example of taking account of equal opportunities within the<br>project is to provide an accessible space for the project implementation.   | exclusion                     | exclusion                     | x  | x  | x   |
|                        | Compliance of<br>the project with<br>horizontal<br>subjects | V12.2                       | Activities<br>supporting a<br>sustainable<br>development  |  | yes/no  |                             | grant application:<br>- Horizontal principles   |           | The relationship of the project to sustainable development is evaluated, especially its environmental pillars. Specifically, the proposals leading to reduce negative environmental impacts should be evaluated (minimizing noise emissions, air emissions, environmental contamination, etc.) or conversely the effects of the project on environmental improvements. It is also necessary to take into account and assess the project's contribution to raise awareness about sustainable development (especially on environmental issues), the judicious use of natural resources (where appropriate) and the project's contribution to strengthen the social and economic pillars of sustainability. <i>If applicable:</i> The grant application shall include an environmental indicator output ("Extended, renovated or newly built capacities without the annexation of agricultural land."). <i>If applicable:</i> It will be checked whether or not the project is implemented on parcels that extend into the territory of specially protected areas or NATURA 2000 areas. (Http://mapy.nature.cz/,p://mapy.nature.cz/, application and landscapes and layers of cadastral maps).  |                               | exclusion                     |  | x  | X   |
|                        | Compliance of<br>the project with<br>horizontal             | V12.3                       | Activities<br>supporting non-<br>discrimination   |  | yes/no  |                             | grant application:<br>- Horizontal principles   |           | It is evaluated, whether there is no project to discriminate certain groups.   |                               | exclusion                     |  | x  | x   |
| sustainability         | economy   | V13.1                       | Sustainability  |  | 5   | 5                           | grant application:<br>- Project description<br>- CBA (FA)<br>annexes:<br>- Feasibility<br>study |           | The project features sufficiently elabourate plan of expenses and profits that is based<br>on reliable and clearly formulated preconditions, and is designed so that it can be<br>justly assumed that financial sustainability of the project will be ensured even after the<br>project finishes at least for as long as is stated in the call.<br>The project features adequate plan of measures to support sustainability of the<br>activities and outcomes of the project. Financial sustainability of the project is fully<br>guaranteed for the whole period of evaluating the project, stated financial resources<br>and capacity of its utilization were sufficiently justified and achieving it seems<br>realistic.<br>Personal development of the team during the period of sustainability: to what extent is<br>personal development of the research team planned for the period of sustainability?<br>Consider if the plan of development takes into account all possible expansion of the<br>research team as a reaction to the achievement of specific outputs and results within the<br>sustainability period. Consider whether the development plan of the research team<br>responds to possible team aging. To what extent is the plan for personnel team<br>development in accordance with development activities in the R&D research centre<br>capacity of the applicant.<br>This applies mandatorily to all projects and investments in infrastructure or<br>productive investments, project supported by the ERDF, major projects and<br>others in case of need defined by the call. | evaluating                    | evaluating                    | x  | x  | 4   |
